

SAVE THE DATE

For the largest global gathering of the Huntington's Disease community!

ON MAY 18, IN THE FIRST EVER PAPAL AUDIENCE WITH HD FAMILIES, POPE FRANCIS WILL MEET WITH PEOPLE AFFECTED BY HUNTINGTON'S DISEASE FROM SOUTH AMERICA – and we extend a warm welcome to the entire HD community to attend!

WHAT: The largest global gathering of the Huntington's Disease community

WHEN: May 18, 2017

WHERE: Vatican City, Italy

The purpose of the event is to raise awareness of Huntington's Disease and the overwhelming challenges faced by the patients, families and caregivers affected by the disease. As part of the **HDdenno more** initiative (pronounced "Hidden No More"), the event aims to shine a light on and bring global attention to the HD community, and to mobilize action to improve the lives of those affected by HD.

As leaders of the HD community, your help is critical to help us achieve this goal. We will be in touch soon with additional details on the event and opportunities to get involved.

Stay tuned, and we hope to see you in May!

HDdenno more and the event with Pope Francis is made possible by a global coalition of patient advocates, including Factor-H, the Huntington's Disease Society of America (HDSA), Elena Cattaneo (professor and lifetime senator) and Charles Sabine.

Visit www.HDdenno more.com for the latest information on this event.
